ACKNOWLEDGEMENTS

The Ministry of Primary and Secondary Education would like to acknowledge the following for their valuable contributions in the compilation of this guide:

- Curriculum Development and Technical Services staff
- Family and Heritage Studies panellists
- UNICEF for funding

ORGANISATION OF THE TEACHER’S GUIDE

This Teacher’s Guide is divided into two parts, namely, Part A and Part B. Part A covers the critical documents which you the teacher must have in order to cover the curriculum effectively. The critical documents are:

- The Curriculum Framework for Primary and Secondary Education 2015-2022
- The School Syllabus
- Schemes of work
- Lesson Plans
- Progress Records
- Register of attendance
- Learner Profiles.

Part B deals with curriculum delivery namely the Content, Objectives, Methods and Instructional materials, Classroom Management, Assessment and Evaluation.

PART A

1.0 CRITICAL DOCUMENTS

2.0 INTRODUCTION

This Teacher’s Guide assists you the teacher in handling the Family and Heritage -Studies learning area which falls under the Humanities. After going through this guide, it is hoped that you will be better able to guide learners in handling this learning area. Accordingly, the guide’s main thrust is on the learning and teaching of Family and Heritage -Studies for Infant learners (Early Childhood Development to Grade 2).

As a teacher it is important for you to have access to the following critical documents in order to deliver the Family Heritage-Studies Curriculum effectively:

- Curriculum Framework
- National Syllabus
- School syllabus
- Schemes of Work/Scheme Cum Plan
- Lesson Plans
- Learner Profiles
- Progress Records
- Register of Attendance

RATIONALE

Family and Heritage - Social Studies embraces the Zimbabwean constitution, patriotism, national identity, national symbols, and factors of production such as land, capital, labour, and enterprise. It also encompasses the history, traditions and social qualities which are considered an important part of Zimbabwe’s image. Family Heritage-Studies moulds the human character and is the foundation of Unhu/Ubuntu/Vumunhu. It develops a spirit of national consciousness and patriotism through interest and involvement in national affairs, conservation and ownership of national heritage. It develops in the learner, skills of critical thinking, problem solving, leadership and self esteem, Information and Communication Technology (ICT) and resource management leading to social and economic development. Therefore critical documents give you important guidelines to enable you to deliver the new curriculum effectively.

OBJECTIVES

It is hoped that after going through this unit, you will be able to:

- Implement this Family and Heritage -Studies Syllabus
- manage your class effectively
- mobilise the teaching and learning resources
- prepare appropriate, engaging teaching aids
- track the learner’s progress during the learning process
UNIT 1

CURRICULUM FOR PRIMARY AND SECONDARY EDUCATION (2015 -2022)

INTRODUCTION

The Curriculum Framework 2015-2022 gives a vision and direction of the education system of Zimbabwe and the kind of a school graduate that Zimbabwe needs. It is important for you as a teacher to read and be familiar with the contents of the Curriculum Framework as a policy document to guide you through the implementation of the New Curriculum. This policy document outlines underpinning principles, national philosophy, learning areas, the description and expectations of MOPSE at policy level. It prescribes what the government expects you to deliver as you go about your duties.

OBJECTIVES

By the end of this unit you should be able to:

- understand the contents of the Curriculum Framework
- comprehend the contents of the Primary school curriculum as a policy to guide you through the implementation of the new curriculum
- understand the principles underpinning the new curriculum
- read and understand the key competencies expounded in the Curriculum Framework

KEY ELEMENTS OF CURRICULUM FRAME WORK

Here are some of the key elements/components that are covered in the curriculum framework:

- Principles and values guiding the curriculum. These include the following among others:
  - Philosophy underpinning the curriculum
  - Policy guidelines
  - Generic principles guiding the curriculum
  - Learner exit profiles
  - Knowledge
  - Skills
  - Values
  - National identity

- Goals of the curriculum
  - Organisation of the school curriculum
  - Infant school goals
- Junior school goals
- Learning outcomes
- Learning areas

**The learning areas at Infant School Level**
- Visual and Performing Arts
- Physical Education
- Mass Displays
- Indigenous Languages
- Mathematics and Science
- Heritage - Social Studies
- Information and Communication Technology (ICT)

**The learning areas at Junior School Level**
- Languages
- Science and Technology
- Mathematics
- Heritage - Social Studies and (LOP) Life Orientation Programme
- Visual and Performing Arts
- Physical Education, Sport and Mass Displays
- Agriculture
- Family, Religion and Moral Education (FA REME)

- **Learning Areas at secondary school Level (Form 1 to Form 4)**
- **Learning Areas at Forms 5 and 6**
- Teaching and learning methods
- Assessment and learning
  - Assessment of skills, abilities and knowledge
  - Relevance of school-based continuous assessment
  - Assessment of learning (formative assessment)
  - Assessment of learning (summative assessment)
  - Performance - based assessment (PBA)
  - Strategies for effective curriculum implementation
UNIT 2

SYLLABUS INTERPRETATION

INTRODUCTION

As a teacher you constitute the backbone of any education system and as such your ability to deliver lessons depends on careful planning. Planning begins with syllabus interpretation, which form the basis for the development of a National syllabus, School syllabus, Scheme of work and a Lesson plan. You need to learn how to interpret the syllabus correctly

Understanding Syllabus Interpretation

- Simply, it is the process of making sense of the syllabus.
- Interpretation is about finding meaning.
- It is the process of unpacking the syllabus, analysing it and synthesising it.

Interpreting the Syllabus

Syllabus interpretation focuses on the following:

- The national philosophy/vision as spelt out in the preamble (as derived from the Framework).
- The syllabus aims and objectives: This is what the syllabus intends to achieve within the learners.
- The content: This refers to the knowledge, skills, attitudes and competences. Content constitutes the heart of the syllabus. Therefore, syllabus interpretation facilitates breaking down of content into teachable units.

OBJECTIVES

By the end of this unit you should be able to interpret the Family and Heritage -Studies National Syllabus

TYPES OF SYLLABUSES

Syllabuses are key documents for every teacher. There are two types of syllabuses namely the:

- National Syllabus
- School syllabus

OFFICIAL OR NATIONAL SYLLABUS

As a teacher, you should be able to interpret the National and the School syllabus and these contain the following components:

Aims, content, assessment objectives, methodology and the assessment or examination - format.
Types of Syllabuses

NATIONAL SYLLABUS

Definition

It is a policy document that outlines and specifies the learning area philosophy, aims and objectives, learning / teaching concepts and content, suggested methodology and assessment criteria at every grade level. You should always have it and use it to guide you in your day to day teaching and learning activities.

FACTORS INFLUENCING DRAFTING

When drafting a school syllabus, we must consider the following factors;

- National goals and subject options available on national curriculum list. This states the national identity and philosophy as well as address national needs.

- The learner’s physical, mental and emotional state:
  - Physical: Consider disabilities, complexity of manipulative skills.
  - Mental: Consider level of maturity and cognitive development.
  - Emotional state: Consider values and attitudes to be developed.

- Resource availability: Consider the facilities and materials available. Consider the qualifications, number, experience and level of training of personnel available.

- Community influences: consider the religion, beliefs and values of local people.

- Evaluation system and strategies: consider how the curriculum is evaluated and whether it will be possible to evaluate it effectively in a particular school environment.

- Time allocation in the official syllabus.

- Local conditions that affect the choice and sequencing of topics.

- Education technology.

- Elements

The National Syllabus consists of:

- Cover page
- Acknowledgements
- Contents page
- Preamble
  - Introduction
- Rationale
- Summary of content
- Assumptions
- Cross Cutting Issues

● Aims
● Objectives
● Methodology and Time Allocation
● Topics
● Competency Matrix
● Content Matrix
● Assessment

Elements (Structure of School syllabus)

● Aims: Are broad indications of what the learners should learn
● Objectives: Learner behavior at the end of the teaching learning experience (competencies).
● Topics/content and activities
● Methodology: This must be learner centred. Therefore, teaching approaches to achieve desired learning outcomes must be learner centred. Learner centred approaches allow learners to practice skills and to display their key competencies.
● Instructional or teaching materials
● Assessment

To interpret the syllabus one needs to identify its components and establish links between and among them. Components of the syllabus include:

(a) Cover page
This is the front cover of the syllabus that states the learning area and level.

(b) Acknowledgements
This is the list of those who participated in the development of the syllabus. Names are not mentioned but the organisation that the members represented. Funders of the syllabus, experts or consultants are also acknowledged.

(c) Contents page
This lists the contents of the syllabus and page numbers.

1. Preamble
   The preamble consists of introductory notes to the syllabus. It has five sub-titles.
**Introduction:** Gives a brief insight into the learning area.

**Rationale:** This is a justification of why this particular learning area is included in the curriculum.

**Summary of content:** This is a summary of what should be learnt in a particular learning area.

**Assumptions:** Learners do not come tabularasa into the classroom. That knowledge that we assume they already have is what we call assumptions.

**Cross-cutting themes:** These are emerging and contemporary issues that cut across all Learning areas. Teachers should find ways of incorporating them in their teaching whenever possible. These are:

- ICT
- Gender
- Children rights and responsibilities
- Disaster risk management
- Financial literacy
- Sexuality, HIV and AIDS education
- Child protection
- Human rights
- Collaboration
- Environmental issues

**N.B** Not all Cross-cutting themes can be applied in all learning areas, some are more applicable to particular learning areas than others.

**Presentation of the syllabus**

This is a description of how the syllabus is presented.

**Aims**

These are general statements of what the Learning area intends to achieve (major outcomes). They are long term and therefore broad. They generally cover the whole Learning area for example from ECD A to Grade 2. They may differ from level to level for the same learning area for example Grade 3 -7. They cover all domains of Bloom’s taxonomy and should cater for all learners (inclusivity).

**Syllabus objectives**

These are specific competencies of the Learning areas and are derived from the aims. Objectives should be SMART (Specific, Measurable, Achievable, Result oriented and Time framed).
Methodology and Time allocation

Methodologies are broad approaches that are suggested for a given Learning area. They are guided by the Curriculum Framework’s thrust i.e. skills or competence based, promoting critical thinking and problem solving. They are also child centred rather than teacher centred.

Time allocation This reflects the number of periods and their duration for a particular Learning area.

Topics
These are the main posts or pillars of the content for the levels given in itemised form. They form the core of a given learning area. In some subjects topics may be based on broad skills for example Languages and Practicals. Topics are broken into sub-topics in the competency matrix depending on the Learning area.

Scope and sequence
It shows the depth and breadth of the content. Sequence refers to ordering of the information. Information is arranged according to logical ordering of the subject from the simple to difficult concepts. Generally, the same concept cuts across all levels differing in depth as learners progress to higher levels. (Spiral approach)

Competency matrix
It is a table that gives the concepts/content to be taught or competencies to be acquired. It is developed from the Scope and Sequence. It includes Topic/Skill, Objectives, Unit Content, suggested learning activities and suggested resources. The competency matrix chart is on page 10 - 46 in the Family and Heritage Studies Syllabus (Infant Level)

Assessment
This section gives information on how the learning area will be assessed, the weighting and skills to be tested, types of questions and duration of each paper. It gives information on how the three forms of assessments namely; formative, continuous, and summative will be conducted and the percentage allocated to each. It also includes information on profiling. This section also has assessment objectives, scheme of assessment, specification grid and assessment model.

Content
The content for Heritage - Social Studies include:

- Identity: Family History and Local Heritage
- Cultural heritage
- National History, Sovereignty and Governance
- Entitlements/Rights and Responsibilities
2.2 School Syllabus (A breakdown of the national/official syllabus)

Introduction

It is a breakdown of the national syllabus and is drafted at the school level with experts from the learning area. This must be drawn at school level from the National Syllabus by reorganising content taking into account local factors (see unit 2 on Syllabus Interpretation).

Thus a School syllabus is a plan that states exactly what learners should learn at school in a particular learning area for example in Family and Heritage Studies. It is a major curriculum document which:

- Prescribes what government would like to see taught in all schools as spelt out in the curriculum framework.
- Outlines the experiences that learners should undergo in a particular course of study for example Infant, Junior and Secondary levels.
- You are required to derive teaching concepts from the syllabus.
- Examinations are set from the syllabus.

Glossary / Appendices

In some syllabuses, there will be a list of explanations of terms and additional information at the end. A list of equipment and reference books might also be found here. As a teacher it is important to have a copy of a School syllabus that is derived from the National syllabus because public examinations are derived from the syllabus.
UNIT 3

SCHEMES OF WORK

DEFINITION

This is a document that you should draw from the national and school syllabus. You should outline the objectives, activities, content, and methods (see scheme cum plan template on page 16). You should prepare your scheme cum plans two weeks ahead of the lesson delivery date (You can use ICT tools to make your plans)

A scheme of work is a plan for something. Your scheme of work is a plan of action which should enable you to organize teaching activities ahead of time. It is a summarized forecast of work which you consider adequate and appropriate for the class to cover within a given period from those topics which are already in the syllabus. A well prepared scheme of work does the following:

- Gives an overview of the total course content.
- Provides for a sequential listing of learning tasks.
- Shows a relationship between content and resource materials.
- Provides a basis for long range planning, training and evaluation of the learning area.

A Scheme of work can be made to cover even one term. Each year is divided into three terms, each with approximately three months or thirteen weeks. A scheme of work should be made for each term, ideally before lessons begin. When you are preparing a Scheme of work, you should consider the following:

Understanding the syllabus

- You may not have been involved in curriculum development but you are expected to interpret and implement it correctly. This calls for a thorough understanding of the syllabus and the content in order to achieve the stated objectives. Your role is simply to implement the syllabus as it is. It is important for you to be thoroughly conversant with the curriculum in order to implement it successfully.

Syllabus content

- Topics in the syllabus may not be arranged in the order they are supposed to be taught. Some topics need to be linked, while others are quite independent. You should both identify essential learning content and arrange it in a logical order. Related subjects should also be considered when scheming. Subject integration should be prioritised where possible.

Reference materials

- You should be familiar with available reference material necessary for effective coverage of the topics in the scheme of work. You should effectively make use of learning resources in your environment.

Assessment
• Learners will be assessed in both continuous and summative methods. Your scheming should reflect this.

Time allocation
• Your scheme should be contextual. That is, it should take context of disturbances that may occur during the course of term, such as public holidays, internal examinations, open days, sports days, visits from district, and province.

Objectives
• Each lesson should have objectives which pinpoint the anticipated learning behaviour of the learners. The objectives must be SMART, for example learners should be able to name types of transport in their area.

Methods
You should state specific activities that you and the learners will perform, for example listing the names of types of transport in Zimbabwe, discussing, identifying, distinguishing, etc

Resources
• Resources necessary for content coverage should be noted down with relevant page numbers, for ease of referencing during lesson planning. References include books, journals, handouts, magazines etc. Teaching resources also include equipment or apparatus that is available and appropriate. You should not indicate a teaching aid that will not be available.

Evaluation
• This should be done immediately and timely, well before the next lesson. Indicate whether what was planned for has been covered, whether there was over planning or failure of a lesson and reasons for either case to help you in consequent and future planning. Avoid remarks like excellent, O.k, taught, because they are not relevant. Indicate strengths and weaknesses of the lessons taught.

COMPONENTS OF A SCHEME OF WORK

The components of a scheme of work are:
• Level of learners - state the level (grade) of learners you are scheming for.
• Subject - indicate the learning area you are scheming for.
• Week ending - the date should be clearly indicated
- **Topic** - topics should follow the order which they are supposed to be taught, from simple to complex.

The layout of a Scheme of Work is usually horizontal and comprises the following columns:

<table>
<thead>
<tr>
<th>WEEK ENDING</th>
<th>TOPIC/CONTENT</th>
<th>OBJECTIVES</th>
<th>COMPETENCES/SKILLS</th>
<th>SOURCE OF MATERIAL</th>
<th>MEDIA</th>
<th>SUGGESTED METHODS/ACTIVITIES</th>
<th>EVALUATION</th>
</tr>
</thead>
</table>
| 22/06/2016  | Identity Local heroes and heroines | - list names of local heroes and heroines  
- identify local heroes and heroines  
- describe the work of some of local heroes | - listing  
- identifying  
- Text books  
- Teacher’s resource book | ICT tools  
- Resource persons  
- Charts  
- Pictures | - Naming local heroes and heroines  
- Singing songs that include names of local heroes and heroines  
- Drawing pictures of local heroes and heroines and labelling them. |

**LESSON EVALUATION:**

**Strength:** Learners were able to list names of local heroes and heroines. They sang many songs that included names of heroes and heroines like Mbuya Nehanda.

**Weaknesses:** Learners were not able to draw good pictures. Some learners were not able to spell the names of the heroes and heroines on their own. This took time as the teacher helped them.

**Way forward:** The teacher will display a chart written names of some national heroes.

You can incorporate a Lesson Plan into a scheme of work and come up with a Scheme-Cum Plan.
UNIT 4

LESSON PLANS

DEFINITION

This is a detailed daily plan of what you intend to deliver during the lesson. This is to be used in the event of you having drawn a scheme of work rather than a scheme cum plan.

By the end of this unit, you should be able to:

- draw up a lesson plan
- identify relevant teaching-learning materials/ Media
- identify appropriate teaching methods
- evaluate the lesson delivery

COMPONENTS OF A LESSON PLAN

The lesson plan involves:

- Preparation (objectives, Media)
- Execution
  - introduction
  - lesson development
  - written work
  - conclusion
  - Lesson evaluation

Below is an example of a detailed lesson plan:

DETAILED LESSON PLAN

Date: 22 June 2016
Grade 1
Time: 11.30 - 12.00
Learning Area: Heritage - Social Studies
Topic/Content: Identity: Family History and Local Heritage
Sub-Topic: Names of local heroes and heroines
S.O.M: - National Family and Heritage - Studies Syllabus Topic 1 page 19
- Teacher’s resource book for the above.
- Text books.
### Suggested Media:
- ICT tools
- Charts
- Pictures
- Resource persons

### Number of students:
40

### Assumed knowledge:
Learners know The Heroes Acre and the Heroes Day

### Lesson Objectives
- list names of local heroes and heroines
- identify local heroes and heroines
- describe the work of some of local heroes

<table>
<thead>
<tr>
<th>STAGE</th>
<th>UNIT CONTENT</th>
<th>SUGGESTED LEARNING ACTIVITIES AND NOTES</th>
<th>SUGGESTED LEARNING RESOURCES</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Introduction</strong></td>
<td>-The teacher introduces the lesson by discussing with learners the importance of The Heroes’ Acres.</td>
<td>-Displaying pictures of local heroes’ acres</td>
<td>-ICT tools(videos of local heroes and heroines) - Resource persons - Charts - Pictures</td>
</tr>
<tr>
<td><strong>Step 1</strong></td>
<td>-The resource person tells learners about local heroes and heroines.</td>
<td>-Telling stories about local heroes and heroines -Discussing heroes and heroines’ contribution</td>
<td>-ICT tools(videos of local heroes and heroines) -Resource persons -Charts -Pictures</td>
</tr>
<tr>
<td><strong>Step 2</strong></td>
<td>-Learners sing songs about local heroes and heroines. -Learners draw pictures of some of their local heroes and heroines</td>
<td>-Singing songs that include names of local heroes and heroines -Drawing the pictures of heroes’s acres in their area.</td>
<td>-ICT tools(videos of local heroes and heroines) -Resource persons -Charts -Pictures</td>
</tr>
<tr>
<td><strong>Step 3</strong></td>
<td>-Learners answer questions in groups and report back.</td>
<td>-Answering question in groups. -Reporting back to the class</td>
<td>-work cards</td>
</tr>
<tr>
<td><strong>Step 4</strong></td>
<td>-Learners sing a song involving names of national heroes and heroines.</td>
<td>-Singing a song</td>
<td>Pictures</td>
</tr>
</tbody>
</table>

..............................................................................................................................................................................................
UNIT 5

RECORD KEEPING

DEFINITION
Records are critical documents about the teaching and learning process.

INTRODUCTION
Records are critical documents about the teaching and learning process which you must keep as a teacher.

They include:

- Syllabuses (National and School)
- Learner’s details
- Examination documents
- Mark lists
- Inventory

OBJECTIVES
By the end of this unit, you should be able to:

- Identify the various records you are expected to keep.
- Prepare accurate records.
- Interpret information from records to promote learning.
- Maintain and keep records safely.
- Appreciate the need to update records regularly.

RECORDS TO BE KEPT

- Official syllabuses
- School syllabuses
- Records of learner details
- Supervision records
- Learner Profiles
- Attendance Register
- Progress Records

All these records are very important and you should constantly administer and upgrade them. They should be readily available for supervision.
3.0 PART B: CURRICULUM DELIVERY

INTRODUCTION

The Family and Heritage - Studies Syllabus embraces the Zimbabwean constitution, patriotism, national identity, national symbols and factors of production such as land, capital, labour and enterprise. The learning area covers the social history of the people of Zimbabwe, local cultures, cultural interdependence, heritage values and religious practices. It also encompasses the history, traditions and social qualities which are considered an important part of Zimbabwe’s image and focuses on cultural and heritage preservation. The Family and Heritage Studies learning area, instils in the learner preservation of ethics and enhances responsiveness to threats against their heritage. The Family and Heritage-Studies learning area, moulds the human character and is the foundation of Unhu /Vumunhu/Ubuntu. The learning area develops a spirit of national consciousness and patriotism through interest and involvement in national affairs. It also develops in the learner skills of critical thinking, problem solving, leadership and self management, Information and Communication Technology (ICT) and resources management leading to social and economic development.

Therefore, for effective curriculum delivery of this learning area, learner centred learning methods and activities are encouraged. The use of instructional teaching and learning aids will create virtual realities thereby helping the learners to learn fast and capture their interest.

3.1 OBJECTIVES

By the end of this unit, you should be able to:
- select appropriate teaching methods for your lessons
- design meaningful and effective instructional material
- use a variety of learner-centered approaches
- plan and organize educational tours
- help learners to carry-out projects or experiments
- make good quality aids from available resources (Types: charts, puppets, models, drawings, slides, videos, pictures)

3.2 CONTENT

Content is the Subject matter, Topics, Key concepts or Skills to be covered in a learning area. Topics are the main posts or pillars of content for the levels given in an itemised form and are core to the learning area.

3.3 METHODOLOGIES

As a teacher it is important for you to use problem solving and learner–centred approaches. You are the facilitator and the learner is the performer. You should select appropriate teaching methods for your lessons. They should be
varied and motivating. The following methods are suggested for you and you should select one or several depending on:

- The subject matter
- Instructional objectives
- The learner
- Your personality
- Learner’s level of development (cognitive, affective and psychomotor)
- Content to be covered
- The time
- Instructional materials
- The environment
- Competencies to be developed

It is advisable that the learner be exposed to more than one method in a lesson. Teaching methods can be grouped under three main categories:

a) Cognitive development methods
b) Affective development methods
c) Psychomotor development methods

**a) COGNITIVE DEVELOPMENT METHODS**

These are mainly didactive

- Discussion Method
- Questioning/Socratic Method
- Team Teaching Method
- Talk Show/Recitation Method
- Field Trip/Educational tours Method
- Futures wheel
- Group work

**b) AFFECTIVE DEVELOPMENT METHODS**

- Modelling Method
- Simulation Method
- Dramatic Method
- Simulation Games
c) PSYCHOMOTOR DEVELOPMENT METHODS

These are more learner activity based and heuristic:

- Gallery
- Inquiry Method
- Interactive e-learning
- Discovery Method
- Process Approach Method
- Demonstration Method
- Programmed Learning Method
- Project Method, case studies, research
- Games
- Mastery Learning
- Song and dance

- Your subject matter should determine the most suitable teaching/ methods to use.
- The instructional objectives to be achieved by the end of the lesson also determine the choice of teaching methods.
- You must be very familiar with the teaching methods you want to use and be convinced they are the most appropriate for that lesson.
- You must consider the age, interest, level of development of the learners and ensure that all learners will benefit from the methods you have chosen.
- You must consider time in relation to the methods chosen.
- You should consider the environment and the size of the class in settling for methods to employ.

3.4 TEACHING AND LEARNING MATERIALS

These are materials that enhance the teaching and learning process. They assist you, the teacher, to achieve desired objectives while enabling learners to grasp concepts. They help learners learn better and faster, motivating them and stimulating their interest.

SELECTING APPROPRIATE INSTRUCTIONAL MEDIA

When selecting instructional media, you have to consider the following:
This teaching and learning media should be of good quality and user friendly considering the available resources in the school. Examples of teaching and learning media appropriate in Family and Heritage - Studies are:

- charts
- flash cards
- ICT tools
- newspapers
- magazines
- resource person
- mobiles
- work cards

Instructional media should be used effectively. It must serve the purpose it is meant for, rather than be mere window dressing. You should design your media with the topic in mind. Charts and cards must be clearly written, with visible colours and correct size of script for the level of learners. Electronic equipment should be checked before the lesson so that it is in good working condition. If you are going to use complicated technical media, make sure you practise beforehand so that you do not embarrass yourself in front of the class.

### 3.5 ASSESSMENT AND EVALUATION

This is the measuring of the success of teaching in terms of teacher and learner performance. It provides you with feedback on the acquisition of knowledge, skills and attitudes by learners.

**Evaluation Methods**

- tests and exercises
- examinations
- homework

The syllabus scheme of assessment is grounded on the principle of inclusivity. Arrangements, accommodations and modifications must be visible in both continuous and summative assessment to enable candidates with special needs to also access assessments.
ASSESSMENT OBJECTIVES

By the end of the Family and Heritage-Studies Infant School level, learners should be able to:

- demonstrate patriotism
- explain the significance of public holidays and other national events
- demonstrate ways of showing respect for self and others
- discuss norms, values and appropriate responsible behaviour
- differentiate between new and old means of transport, information and communication technology (ICT)
- indicate how modes of transport and ICT facilitate communication among people and countries
- justify the importance of work and leisure
- explain key historical events in the family and local community
- compare the practices of their own community culture and that of others
- identify appropriate shelter for humans and animals
- explain the need for equal opportunities for all citizens of Zimbabwe
- identify the global environmental issues that affect livelihoods
- describe the production and marketing of goods and services

SCHEME OF ASSESSMENT

Family and Heritage-Studies will be assessed through continuous assessment at Infant Level (ECD A to Grade 2)

Continuous Assessment

Continuous assessment shall involve projects, written tests, assignments and practicals.

NOTE: A profile system has to be developed for every child to capture those attributes that cannot be measured such as the soft skills. A folio comprises projects, written tests, and practicals collated termly, from ECD A to Grade 2. Observation schedules, checklists, tests and project tasks are to be set at school, cluster, district and national levels.

Assessment of Learners

On the assessment of learners it should be noted that the area is under ZIMSEC and more details on both continuous assessment and Learner profiling will be given in due course.
3.6 CLASS MANAGEMENT

This is the process of planning, organizing, leading and controlling class activities to facilitate learning.

CREATING AN EFFECTIVE LEARNING ENVIRONMENT

This covers classroom organization from:

- **Physical environment:**
  - clean, tidy and airy room.
  - furniture carefully and safely arranged.
  - teaching and learning aids should be visible to all learners.

- **Emotional environment:**
  - You need to be firm yet warm and pleasant. As a teacher you must set the right tone, telling your learners what behaviour you expect from them.

- **Grouping:**
  - You may group your learners according to needs, abilities, problems but never by sex. Encourage them to share ideas in groups.

- **Class control and discipline:**
  - You must be knowledgeable of the school policy on discipline. A teacher must always be firm but fair. Good behaviour must be acknowledged and punishments must be corrective not cruel. You should create an atmosphere of trust and honesty in your class and aim for intrinsic discipline.

- **Motivation:**
  - As a teacher you must make your learners feel important through recognizing and rewarding achievements, and encouraging those who are lagging behind. Rewards should not be food, but positive remarks, or items related to learning like pencils and crayons or even displaying their work on the wall. Calling pupils by their names creates good rapport with learners. You should also be a role model to your learners by the way you handle yourself.

- **Supervision:**
  - You must check learners’ work in order to guide and correct them in all areas from group discussions, games, field trips and even when they are going to the convenience rooms.
UNIT 10

SYLLABUS TOPICS

The following topics are to be covered at ECD A to Grade 2 (Infant School)

10.1 . Identity: Family History and Local Heritage
10.2 . Cultural heritage
10.3 . National History, Sovereignty and Governance
10.4 . Entitlements/Rights and Responsibilities
10.5 . Shelter
10.6 . Social Services and Volunteerism
10.7 . Production, Distribution and Consumption of Goods and Services
10.8 . Transport and Communication
10.9 . Work and leisure
10.10 . Global Issues

EARLY CHILDHOOD DEVELOPMENT A (ECD A)

TOPIC 1: IDENTITY: FAMILY HISTORY AND LOCAL HERITAGE

The following Key concepts are covered under this broad topic:

● Myself and my family
● Myself and my friends
● Myself and my school
● Family norms and values

Learning Objectives

By the end of the lesson, learners should be able to:

● name themselves
● identify family members
● name their friends
● state games they play with their friends
● talk to their friends
- name their teacher and school
- describe their school
- state family norms and values
- identify common courtesies and etiquette in the family

UNIT CONTENT

Activities

- Saying out their names
- Naming family members
- Colouring pictures of family members
- Singing naming songs
- Identifying their friends
- Listening and answering questions
- Playing identity games
- Colouring pictures of themselves and their friends
- Stating the name of their school and teacher
- Constructing model buildings
- Discussing family norms and values
- Demonstrating common courtesies and etiquette in the family
- Role playing common courtesies and etiquette in the family

Methodology (learner centredness)

Remember, as the teacher you facilitate the learning process. Learner centred participatory methodologies are encouraged. These among others include role play, group work, discussions and singing songs.

MEDIA

- ICT tools
- Pictures of family members and different people
- Balls
- Different types dolls of
- Skipping ropes
- Toys
- Resource Persons
- Blocks
- School buildings
Assessment

Learners must be assessed continuously throughout the learning process. The teacher has to profile learners as well.

**DO THE SAME FOR ALL REMAINING TOPICS**

Topics are further broken down into Sub-Topics/Sub-Skills depending on the Learning area. The Family and Heritage Studies Scope and Sequence Chart has been attached below under Annexe 1.
ANNEXURE 1
